Capture Cincinnati 09™ is all about how you see Greater Cincinnati and Northern Kentucky. It started with a simple idea: Lots of folks take lots of pictures of the Cincinnati area, many of which would be worthy of publishing in a fine-art, coffee-table book. Knowing that thousands of photos would be submitted, we posed the question: How do we pick the best from the rest? The answer was genius. We put the editing power in the hands of the people. Local people. People who know the Cincinnati area. People just like you. We asked photographers, doctors, union workers, musicians, moms, right-handed people, pants-wearing folks, or anyone from any walk of life to vote for what they considered to be the photos that best capture the tri-state area. From 24,395 photo submissions to the pages of this book, 2,473,484 votes helped shape what you hold in your hands. It's something that's never been done before: publishing by vote. Enjoy it.
